

Patriot Drone Operators LLC has partnered with InfraSix who has developed a proprietary application for iOS and Android called InfraDrone which provides Commercial Drone Operators a Cross-Platform Application and Professional Drone Pilot Network with premium tools to support gaining jobs and executing them.

Patriot is seeking commercial drone operators who are interested in A) contract with PDO to become a preferred service provider or B) joining the PDO team through acquisition.

Do you have the ability to service our clients?

In contracting with PDO to become a preferred service provider gives you access to:

- Additional service offerings to current and future clients
- Improved Project Pipeline
- Being part of a national network
- Support for our software products

Joining the PDO team will give you access to (via acquisition):

- Onboard to streamline your process
- Access to growth capital
- Support of our services including - legal, accounting, financing, administrative and marketing services
- Company equity upside

Integration With InfraSix Artificial Intelligence and Machine Learning:

- Bring your clients access to proprietary AI / ML for drone optics
- Gives drone operators a competitive advantage
- Universal LiDAR data processing algorithm
- Works with Engineering, Utilities, Big Energy, DoT, Military, Oil & Gas, Rail, Construction, City / State / Federal
